NOTICE: 2023 SEMESTER ONE TRANSCRIPTS

This notice serves to inform students that the Office of the Registrar will begin issuing of transcripts once all Semester One assessments have been approved by Academic Board.

The clinical programs assessment results will be endorsed at the Academic Board this week before processing of all transcripts can begin.

All students in year levels one, two and three will receive e-copies of their transcripts issued to your student email account. The final year students will receive hard copies of transcripts in preparation for job search and career opportunities.

We will announce when transcripts are ready for dispatch for your convenience.

We wish you a successful Semester Two of academic year 2023.

From the office of the Registrar
