The 2023 Graduation Committee would like to extend its gratitude and appreciation for all who committed their time, efforts and ideas into the planning and facilitation of the 41st Graduation Ceremony held here at the Madang Campus on the 10th of March. Our most sincere thanks to:

• The DWU Council, Management and support divisions (President's office, Office of VP Madang Campus, QA Division, Marketing, Finance and Printery)
• Office of VP Academic Affairs, Registrar's Office and the Flexible Learning Center
• Dr Fiona N'Drower
• Faculties and their administrative officers
• The academic support services (Office of VP Student Affairs, Student Services, ICT and Clinic)
• The SRC and the many volunteering students
• Ms Uiari and the THM students
• Mr Wapar, Ms Veve Lohia and the Live stream team
• The Enga and AROB student groups
• The grounds, maintenance, electrical and catering teams
• The security personnel and
• Importantly our graduates and visitors.

We come full circle at around March each year to celebrate the achievements and successes of our students who have completed their studies. The Graduation is the beginning to many new opportunities for growth and development for not only the graduates, but the country as a whole.

It represents our vision and mission as a higher education institution that is called to serve Papua New Guinea. Very fitting with our theme, that all our volunteers this year were prepared and came fort to serve without being requested. To the student volunteers, I pray this learning experience is one you can take and utilize ten-folds in future to contribute to nation building.

To the committee, thank you for your continued efforts. We continue to serve in the love of Christ so that those who live and study among our community be inspired to do the same.

As always, we take this time to also learn of our shortcomings. Your feedback will continue to help us improve in our planning and facilitation of university events. Find below a link to the evaluation form or you can scan or click the code to get the link.
